

DONTEK ELECTRONICS

SPASA Australia 2022 Victorian Awards of Excellence

The team at Dontek Electronics are thrilled to have been awarded SPASA Australia's Highly Commended Innovative Product in the Victorian category for AQUATEK, a smart technology that allows pool owners to control the temperature of their solar heating. AQUATEK uses state of the art technology to manage all your pool and spa requirements, including single speed pumps, variable speed pumps, heating, sanitising, lights, water features, pool and spa valve actuators and all spa equipment requirements. The handy AQUATEK app can be downloaded to any smartphone and allows pool owners to control their pool from the palm of their hand, leaving behind the complicated pool automation of the past. Founded in 1989, Dontek Electronics has specialised in solar controllers for 33 years, establishing itself as one of Australia's most diversified manufacturers of pool electronics. Designed and made in Melbourne, Dontek Electronics continually strives for excellence in everything it undertakes, with AQUATEK showcasing their commitment to innovation in the pool and spa industry.

LIFE JUST GOT EASIER WITH AQUATEK
